

## National Security Academy Trainees

BAE Systems Applied Intelligence help nations, governments and businesses around the world defend themselves against cybercrime, reduce their risk in the connected world, comply with regulation, and transform their operations.

We employ over 4,000 people across 18 countries in the Americas, APAC, UK and EMEA.

A technical Training Academy, focussed on generating inspirational careers in National Security will give successful candidates real opportunities to make a valuable difference every day.

Do you have what it takes to be an unseen hero?

The NS Academy is a completely unique opportunity for individuals with the confidence and technical capability to support a safer future and focusses on Software Development (Java) building individuals with the ability to support 3 three critical areas:

- Secure Software Solutions
- Test Engineering & Analysis
- Critical Application Support

If you are a STEM Graduate, have been working within IT for a number of years or simply have a passion for Computer Science then the NS Academy could be for you. With no requirement to have any previous experience of software development the programme will provide you with the technical knowledge and interpersonal skills to work with confidence in a wide variety of challenging business environments.

The NS Academy is delivered in partnership with QA Consulting and is located within one of QA's world leading training centres. With purpose built Academy style locations, candidates will feel part of the programme from day one.

Key Programme features:

- An integrated programme delivering learning that supports a strong sense of progression, continuity and collaboration whilst building IT excellence.
- A strong foundation in practical interpersonal and business skills
- Business engagement skills with Business Analysis, Requirements Engineering whilst working in Agile teams
- World class technical training in Java, JEE, Web Development, Software Testing and Cyber Security
- A highly experienced Programme Director providing guidance and support designed to maximise your learning
- Subject Matter Experts imparting experience and knowledge to ensure you have the skills to succeed
- Practical experience working hands on to solve real life business challenges
